Aekkachai Saiyan(bie)

88/2 Na Paen, Sri Than Subdistrict, Phu Kradueng District, Loei 42180, Thailand

Education

(2022-2025)

BACHELOR'S DEGREE IN COMPUTER SCIENCE

GPA : 3.09

Faculty of Infomatics

MAHASARAKHAM UNIVERSITY

PROFESSIONAL EXPERIENCE

Web Application Project Budget Management System

Oracle APEX Developer Intern [Soft Square International]

[DEC 2025 – MAR 2026]

- Developed a budget management web application using Oracle APEX and Oracle Database to improve financial operations efficiency.
- Designed database structures and implemented business logic using SQL and PL/SQL.
- An Interactive Grid (IG) was built with Item Validation (IV) to ensure real-time editing and data accuracy.
- Designed Business Process (BG) workflows and developed Account Payable (AP) module.
- Created UI/UX mockups and generated reports using JasperReports and Excel (SQL).
- Optimized performance and user experience using JavaScript, Dynamic Actions, and jQuery.

Experience

(2023-2025)

angular vote food

- Develop a web application for random ranking calculation using an enrollment-based ranking algorithm for score ordering. Build the user interface with Angular Framework as the front-end and use Node.js as the back-end server for data processing.

Lottery number generator

- Develop a mobile lottery number generator application using Flutter Framework for app development, MySQL for database design and management, and Figma for creating user interface (UI/UX) prototypes. This will create a complete and user-friendly lottery app

Application LifeChance

- Develop a Point of Sale (POS) app for recording clothing sales with category management. Use Flutter for app development, MySQL for database design, Firebase Authentication for Google Email login, image management features, and reCAPTCHA v2 through Key API integration. Design the app prototype using Figma.

Skills

- front-end
 - Angular Framework , HTML , PHP
- Back-end
 - Go , NodeJS
- Flutter
- SQL
- PL/SQL
- Javascript
- Database design
- Tester

Tools

- Figma
- GitHubDesktop
- Visual studio Code
- Postman
- ...
